## Meet the freshman SCHOLARS...

### YOMBO Adesanya, Scotia, NY

Yombo was a little nervous about coming to a new school but at the same time, was excited to meet new people. She is looking forward to trying field hockey or rowing and wants to join the cooking club. Her favorite subject is English, and she likes to read, cook, bike, and listen to music.

### ELIJAH Sellers, Philadelphia, PA

Elijah's favorite subject is math because he likes a challenge. He was looking forward to coming to Radnor ABC to get an experience similar to a boarding school. He enthusiastically plays basketball and baseball.

### NOEL Maldonado, New York, NY

Noel was excited to come to Radnor ABC for the experience of living in a house with other people and going to school in a different state. He likes to learn about history and is good at math. He enjoys video games and plays basketball and baseball.

### About Radnor A Better Chance

Since 1972, Radnor A Better Chance has been giving motivated and talented minority youth the opportunity to achieve their dreams through education.

Each year, we fully support 10 young men and women of color while they embark on a four-year journey attending Radnor High School. In doing so, we hope to make the world a better place by fostering a new generation of diverse future leaders and successful members of society while bringing a richer diversity of perspectives to the Radnor community.
